About YSM

Yogoda Satsanga Mahavidyalaya (YSM), recognized under Sections 2(f) and 12(B) of the UGC Act, is a minority institution located in the capital city of Ranchi, Jharkhand. Established in 1967 under the aegis of the Yogoda Satsanga Society of India (YSS)—a globally renowned spiritual and charitable organization founded by Sri Sri Paramahansa Yogananda, author of *Autobiography of a Yogi*—the college draws inspiration from his educational ideals that emphasize balanced development of body, mind, and soul.

True to its mission of “Reaching the Unreached,” the college has been dedicated to providing inclusive higher education, especially to underprivileged and tribal communities. The aim is to shape young learners into invaluable national assets who will contribute positively to society, while nurturing spiritual growth and ethical values.

The 11-acre campus—with nearly 42% green cover—offers a serene environment for academic and personal development. YSM provides undergraduate programs in Arts, Science, and Commerce; vocational courses like BBA, BCA, and B.Sc. (IT); and postgraduate programs in Commerce. Skill-based and employability-enhancing courses such as Office Operation Executive, Communicative English, Cyber Security, and Cloud Computing are also offered.

Holistic student development is supported through excellent infrastructure, a well-equipped gymnasium, yoga and meditation center, sports facilities, a digital knowledge center, healthcare unit, and mentoring system. Students are also sensitized to social responsibilities through NSS and NCC activities.

The college actively promotes ICT-enabled learning through Wi-Fi connectivity, smart classrooms, modern labs, and a partially automated library offering access to e-journals and e-books through UGC-INFLIBNET’s N-LIST program.

At YSM, education is seen as a sacred responsibility to empower students to make a meaningful difference in society—academically, ethically, and spiritually.
